Madrid, January 10.

ON the 6th Inſtant the Courier returned who had been diſpatched to Rome, for the Pope's Bulls to qualify Cardinal Alberoni to hold the Archbiſhoprick of Seville. He brought back the Opinion of the College of Cardinals, that thoſe Bulls could not be iſſued, conformably to the Holy Canons, before Proof was made by an Inſtrument paſſed in due and legal Form, that Cardinal Alberoni had actually renounced the Biſhoprick of Malaga to which he was firſt promoted. Whereupon ſuch an Inſtrument having been executed, was ſent away Yeſterday by another Expreſs. We have Advice from Cadiz, that aſſoon as the Intendant Patino arrived there, he gave Orders for delivering all the Effects brought by the laſt eight Ships from New Spain, to the Perſons concerned, deducting only 5 per Cent. for the Indulto on Silver, 1 and an half per Cent. on Gold, and 8 per Cent. on other Goods. The Remittances which were ready to have been made to Holland, for ſome Ships of War that were ordered to be bought there, are ſtopt; becauſe of certain Difficulties newly riſen, which have obſtructed the Contracts that were making for thoſe Ships. 'Tis adviſed from Barcelona, that a conſiderable Number of Water-Casks for Shipping are providing there, as alſo abundance of Mangers and other neceſſary Accommodations for carrying Horſes by Sea; and 'twas reported, that a good Number of Troops is to be tranſported from thence to Sardinia, which Iſland is deſigned for a Place of Arms, in Caſe the War be carryed further. On the 2d Inſtant the Conde de Salvatierra put on his Hat in the King's Preſence as Grandee of Spain, on which Occaſion there was a general Appearance of the Grandees.

Copenhagen, Jan. 11. Laſt Week arrived here from Holſtein, ſeveral Waggons with Money, amounting in all to 130000 Rixdollars. Which Sum is to be made uſe of for paying the Troops. 'Tis thought very lucky that this Money was collected in Holſtein before the Inundation, which has ruined the fineſt and richeſt Part of that Country; as alſo that the Cavalry which had long been quartered there, were by the King's Order come over to this Iſland a little before. 'Tis computed that the King will loſe this Year, and perhaps the next ſucceeding Year or two, 300000 Rixdollars of his Revenue in Holſtein, beſides the Expence of repairing the Dykes, and enabling the Peaſants to ſettle again in that Part of the Country which was overflowed. We have had no Advices from Norway ſince the 18th of laſt Month. The Tranſports laden with Proviſions for that Country will ſail from hence in a few Days, with the Baggage of ſeveral General Officers who are already ſet out to go by Land as far as Flaſtrand.

Berne, Jan. 19. The Conferences at Baden about the Affair of St. Gall go on with Succeſs. Thoſe who are there on the Part of the new Abbot and Chapter were for making a freſh Treaty; but the Deputies of the two Cantons having declared to them, that they could not by their Inſtructions proceed upon any other Foot than that of the old Convention of Roſchach, thoſe of St. Gall acquieſced in it and produced their Grievances, ſo that now this Matter is in full Negociation, and has a fair Appearance of being ſoon brought to a happy Concluſion. It is ſaid Gommiſſions have been ſent from France for buying 2000 Horſes in this Canton, and 1000 more at Lucern for remounting their Cavalry. The Officers of this Canton, who are in the Service of France, have likewiſe demanded Permiſſion to raiſe Recruits here for their Companies, which has been granted.

Paris, Jan. 22. The ſix Deputies from the Parliament of Britany are arrived here, and four Counſellours of the ſame Parliament
